SUMMARY

Seeking a challenging position in a reputable organization to utilize my skills and knowledge effectively, contribute to team success, and further develop my professional growth.

PROJECTS

Online Job Search Portal .

- Developed a fully functional job search portal that allows users to search for jobs based on location, skills, and experience. Implemented features for job postings, user registration, and employer profiles, using HTML, CSS, JavaScript, and a back-end and MySQL.
- Ensured responsive design and optimized performance for a seamless user experience across devices.

Hospital Patient Record Management System.

- Enabled hospitals to securely post and manage patient details, including medical history and reports.
- Designed a user interface for patients to view their records and book appointments seamlessly.
- Automated appointment scheduling and ensured secure access to records, enhancing efficiency and patient satisfaction.

Employee Management System Using React.

- Developed a full-stack Employee Management System using Spring Boot, REST API, and React.js, focusing on CRUD operations.
- The project includes features for adding, viewing, updating, and deleting employee records.
- Leveraged RESTful APIs for secure data exchange and React.js for a responsive and user-friendly interface, ensuring efficient and scalable management of employee data.

SKILLS

Front-End: HTML, CSS, JavaScript, Bootstrap and React JS

Back-End: Java and Spring Boot

Database: MySQL

Tools: Eclipse , MySQL Workbench and Visual Studio Code

CERTIFICATIONS

- Fullstack Java Course - Besant Technologies, Chennai.
-

EDUCATION

Bachelor of Computer Science

06/ 2024

Sastra Deemed To Be University, Kumbakonam
CGPA: 6.4
